

PROSTATE DAP REFERRAL FORM

Date: (YYYY/MM/DD) _____

Diagnostic Assessment Program

Nurse Navigator

Telephone: 519.646.6000 ext. 65622 | Fax: 519-646-6217

REFERRAL CRITERIA TO PROSTATE DIAGNOSTIC ASSESSMENT PROGRAM:

Check (✓) all that apply: Abnormal DRE suspicious for cancer
 PSA >10
 PSA ≥ age based PSA value confirmed

Aged based normal upper limit PSA: 40-49 years | 2.5 ng/mL 50-59 years | 3.5 ng/mL 60-69 years | 4.5 ng/mL

PATIENT INFORMATION:

Patient Name:

Address:

DOB: (YYYY/MM/DD)

HIN: VC: Translator Required: Yes No Language:

Telephone: Telephone (Alternate):

BEFORE COMPLETING THE REFERRAL ENSURE:

2 PSA results, and 1 Free/Total ratio in the last 6 months and at least 1 month apart are available

MOST RECENT PSA VALUES	DATE OF TEST (YYYY/MM/DD)	FREE/TOTAL RATIO (required for 1 PSA)
1.		
2.		
3.		

PERTINENT MEDICAL AND SURGICAL HISTORY:

DIGITAL RECTAL EXAM FINDINGS:

PLEASE MARK DRAWING WITH FINDINGS

Nodule Asymmetry Enlarged Normal

Pertinent Family History of Prostate Cancer: Age at Dx:

ALLERGIES: NKA Yes, specify:

CURRENT MEDICATIONS: Or send e-list of current medications.

DRUG	DOSE	FREQUENCY	DRUG	DOSE	FREQUENCY

Has the patient had any previous TRUS or pelvic CT/MRI? Yes No

If YES, Where? When?

Referring Physician: (please print)

Telephone:

Signature:

Fax:

Prostate Diagnostic Assessment Program

What is the Prostate Diagnostic Assessment Program?

The prostate DAP Program will streamline diagnostic testing for patients suspected of having prostate cancer and if needed, refer a patient for treatment.

Where is the Prostate Diagnostic Assessment Program located?

The program is located at St. Joseph's Hospital, zone B, 4th floor, room 602 (B4-602).

Who will be involved in my care?

A nurse navigator and a urologist will be part of your assessment team. They will help you to be involved and understand your care plan.

When will my appointment be?

- Once the prostate DAP receives a completed referral from your family doctor, your doctor will notify you with a date and time for your appointment, usually within two weeks.
- You will need to bring a list of all medications and herbals/vitamins you are taking to this appointment.

What can I expect during my visit?

- You will be assessed by our prostate team.
- Coordination of tests and appointments
- Provision of information and answering questions

How will my family doctor know what's going on with me?

Your family doctor is an important member of your health care team. We will send a copy of all the information about your tests and treatments to your family doctor.

Can I bring someone with me to these appointments?

Yes, we encourage you to bring someone that is able to hear the suggestions and recommendations provided to you by your care team.

If I am diagnosed with prostate cancer, what happens next?

- There are various management options available for men with prostate cancer that will be discussed with you.
- If necessary, you may be referred to other health care providers such as a urologist that specializes in cancer surgery, a radiation oncologist, medical oncologist, spiritual care provider, or social worker to help support you in your decision making process.
- There will be resources and education sessions available to help you make decisions about your treatment.
- The prostate DAP team will discuss the next steps in your treatment plan and arrange for follow-up care.

What hospital will I go to if surgery is needed?

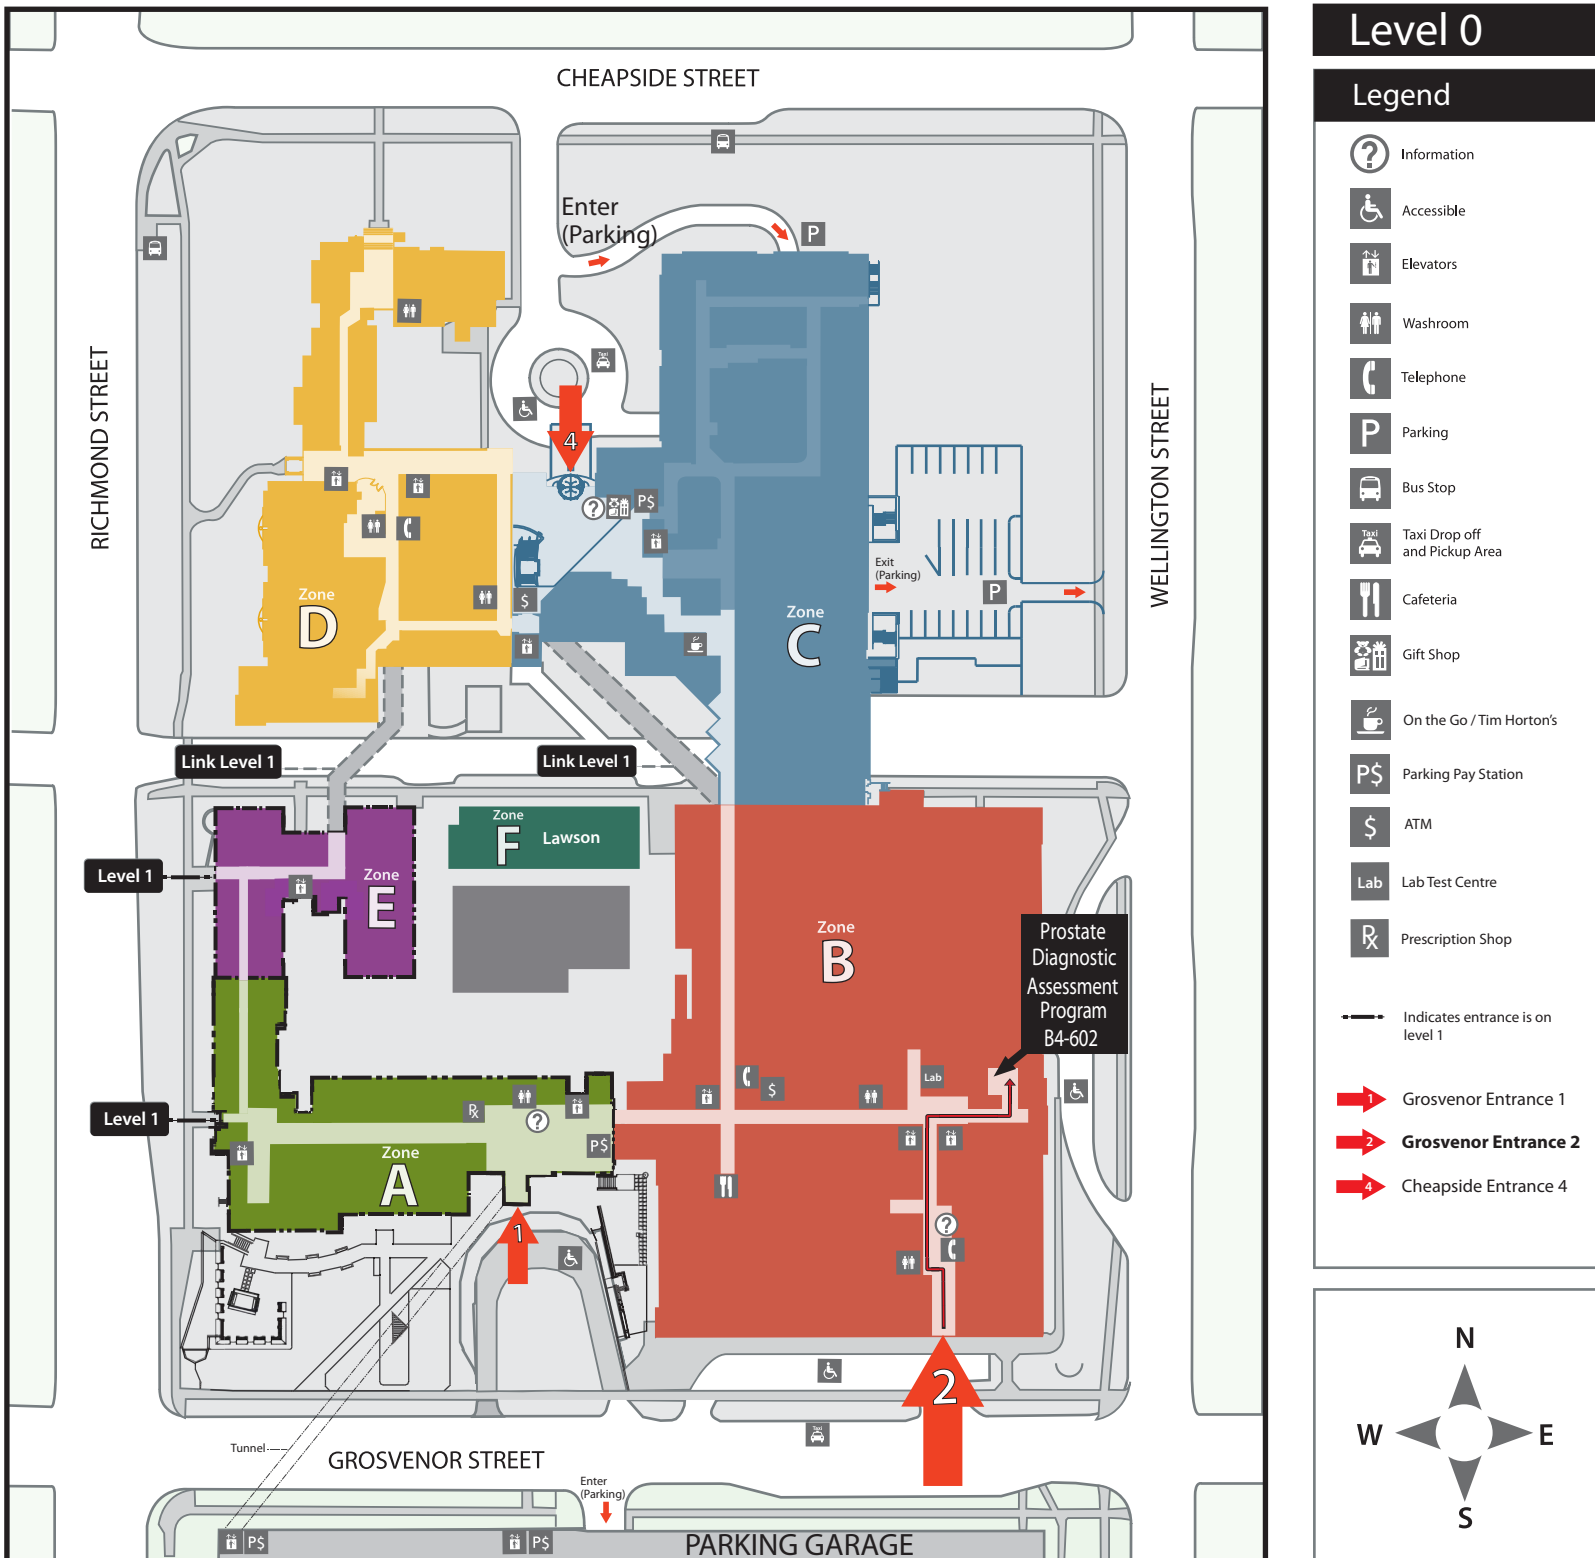

Our staff will discuss this with you. We will try to arrange surgery at a hospital as close to home as possible.

Note: If a diagnosis is confirmed and treatment is necessary, care may be provided at London Health Sciences Centre or St. Joseph's Hospital.

In collaboration with the
South West Regional Cancer Program

How to get to the Prostate Diagnostic Assessment Program

PDAP B4-602 program map MAR2016

From the parking garage on Grosvenor St. enter the hospital at Entrance 2/Zone B. At the end of the hall, take the elevator to the 4th floor and follow the signs to the Urology Clinic.
